CV, BV, and AV are registered certification marks of Reed Elsevier Properties Inc., used in accordance with the Martindale-Hubbell certification procedure's standards and policies. Martindale-Hubbell is the facilitator of a peer review process that rates lawyers. Ratings reflect the confidential opinions of members of the Bar and the Judiciary. Martindale-Hubbell Peer Review Ratings fall into two categories - legal ability and general ethical standards.

Super Lawyers selects attorneys using a rigorous, multiphase rating process. Peer nominations and evaluations are combined with third party research. Each candidate is evaluated on 12 indicators of peer recognition and professional achievement. Selections are made on an annual, state-by-state basis.

The objective is to create a credible, comprehensive and diverse listing of outstanding attorneys that can be used as a resource for attorneys and consumers searching for legal counsel. Since Super Lawyers is intended to be used as an aid in selecting a lawyer, we limit the lawyer ratings to those who can be hired and retained by the public, i.e., lawyers in private practice and Legal Aid attorneys.

The Super Lawyers selection process involves three basic steps: creation of the candidate pool; evaluation of candidates by the research department; and peer evaluation by practice area.
